“THE FUTURE OF
**SYSTEM
ALUMINIUM**
WINDOWS IS HERE”

Weatherseal – Asian Paints presents STRUVA, where bold innovation meets minimalist grandeur, setting the new gold standard in premium fenestration.

At the heart of every space is a window to the world beyond. Weatherseal products transform mere openings into experiences where light, landscape, and life flow unbroken. We don't just make windows, we engineer possibilities. Our system aluminium windows are the slimmest in design, the strongest in performance because your spaces deserve nothing less than limitless.

STRUVA

Windows that
set you free

Elevate your spaces with STRUVA, the next-generation aluminium window system from Weatherseal by Asian Paints. STRUVA redefines modern fenestration with its slimmest profiles in the category, unmatched durability, and innovative engineering.

WHY STRUVA?

Slimmest. Strongest.

The thinnest frames in the category, engineered to defy limits.

Unbreakable Performance

Can withstand high wind, water and air resistance - built for extreme conditions.

Limitless Views, Limitless Living

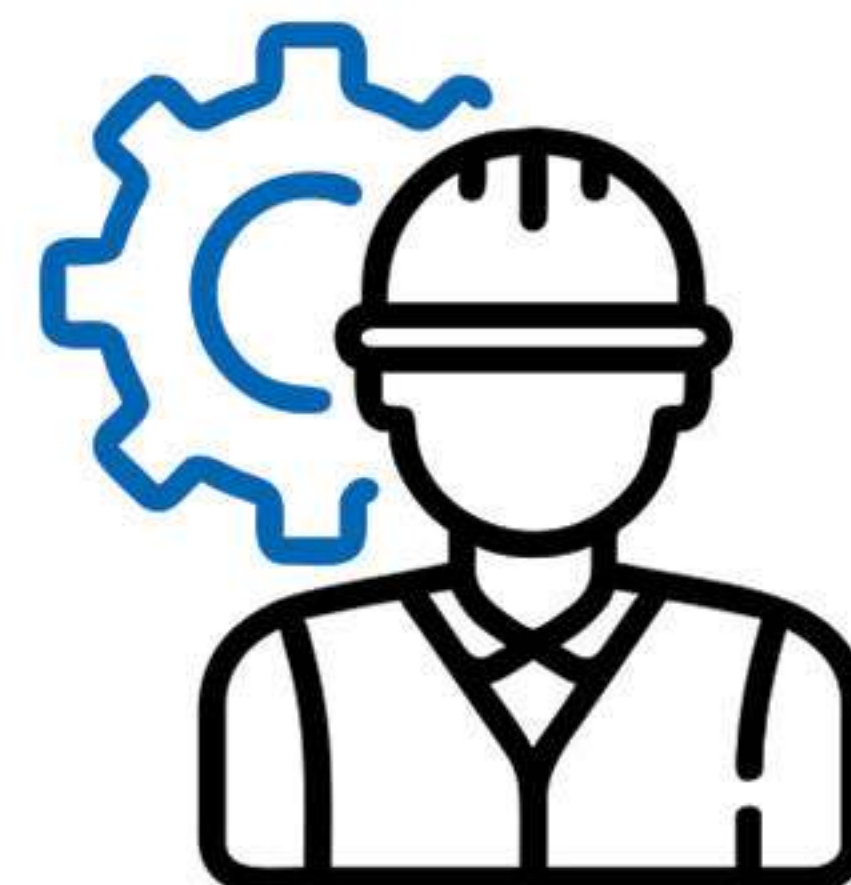

Vanishing sightlines (as low as 25mm) for uninterrupted panoramas.

Affordable Luxury

Premium quality at a price that redefines value.

STRUVA-SG

“Engineered for those who refuse to compromise bigger views, bolder performance, unbeatable value ”

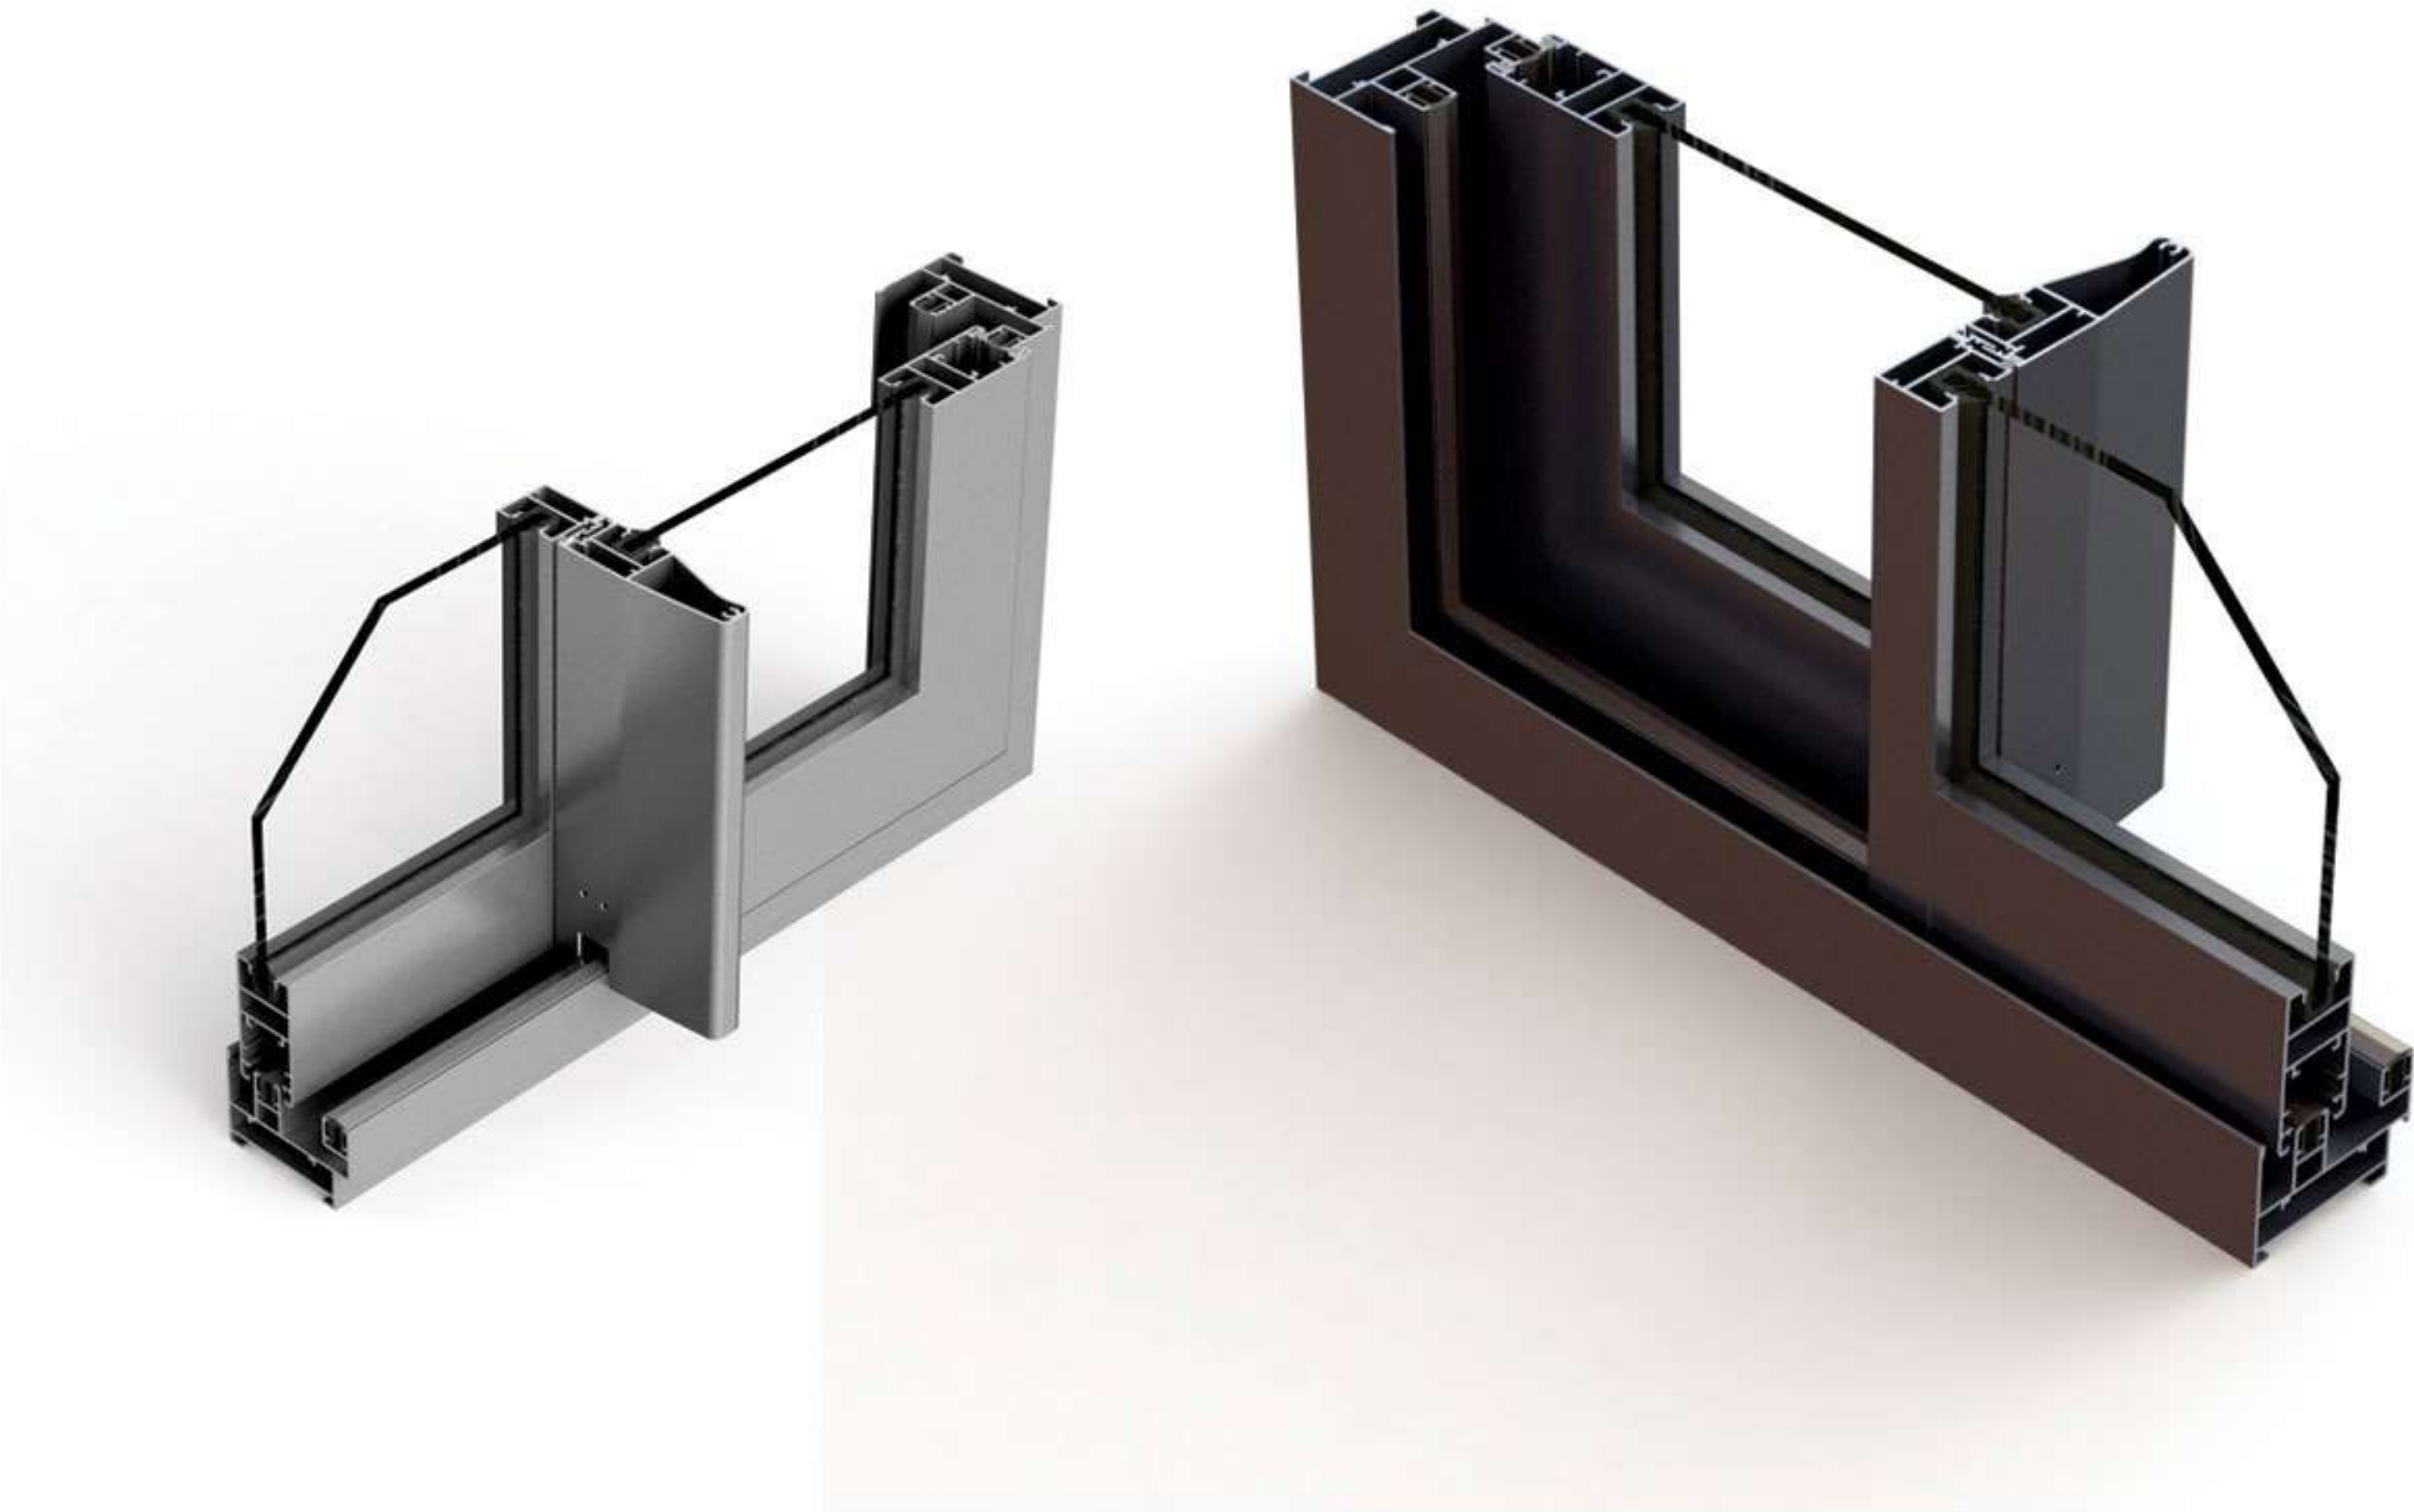

Presenting STRUVA-SG, a masterpiece of minimalist engineering. With the slimmest profile in its class, this 29mm sliding system redefines sophistication. It's not just a window; it's a statement of style, precision, and purpose. Seamlessly blending into modern architecture, it stands resilient against nature's extremes with an unyielding core.

- *Minimalist yet mighty: Ultra-slim 29mm profile*
- *Unshaken by storms: 2500 Pa wind resistance*
- *Tailored elegance: Seamless glass integration (6–24mm thickness)*

STRUVA-SG

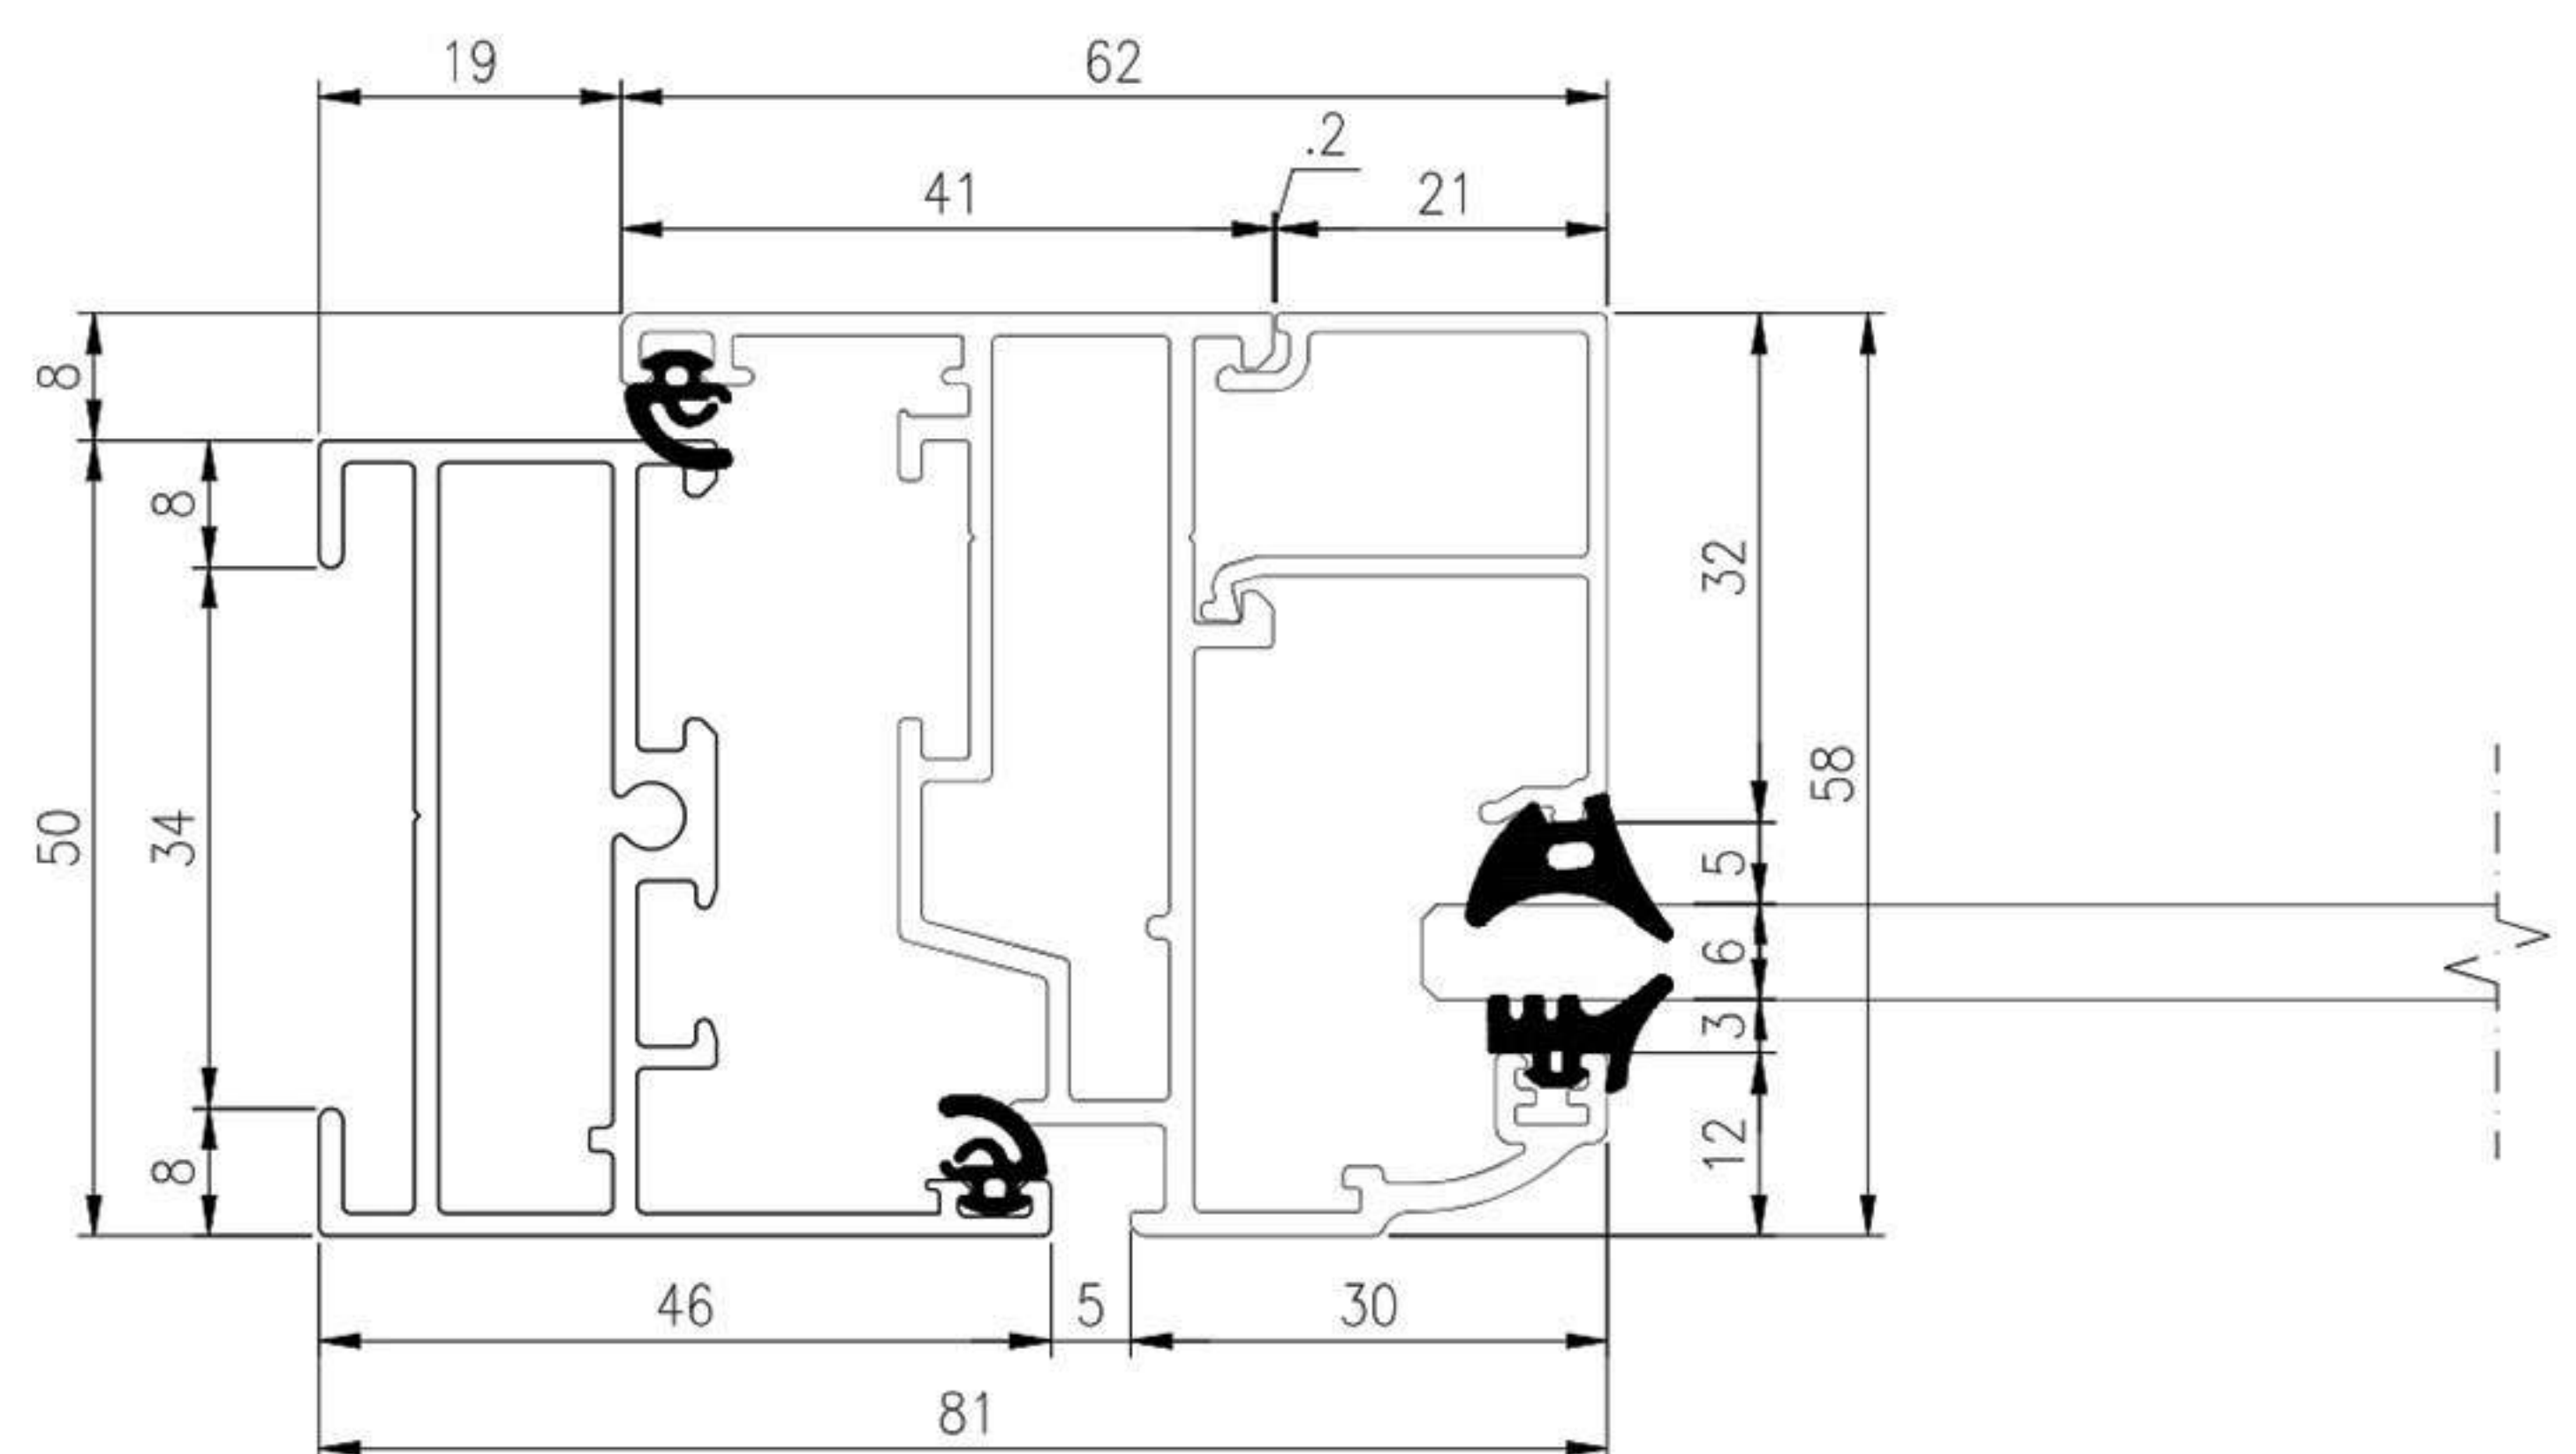

SYSTEM FEATURES	
Air Permeability	300 Pa
Water Tightness	300 Pa
Wind Load	2500 Pa
Maximum Sash Height	2400 mm
Maximum Sash Width	1200 mm
Maximum Sash Weight	120 kg
Minimum Glazing Thickness	6 mm
Maximum Glazing Thickness	24 mm
Sightline Interlock	29 mm

"The ultimate fusion of invisibility and invincibility with disappearing frames, uncompromising power"

Artful Integration - Designed for 6 to 24 mm glass ■

Unparalleled protection: Heavy-duty 2500+400 Pa sealing ■
