VITALIS
Aluminium
Doors & Windows

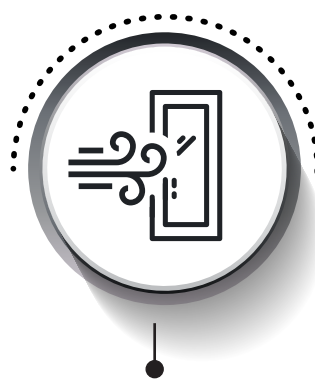

Weatherseal by Asian Paints presents its new Aluminium System, **VITALIS** — engineered to deliver functional, smart, and efficient performance.

In a world shaped by modern architecture and evolving lifestyles, windows are no longer just functional elements. They are essential to the way we experience space, light, and comfort.

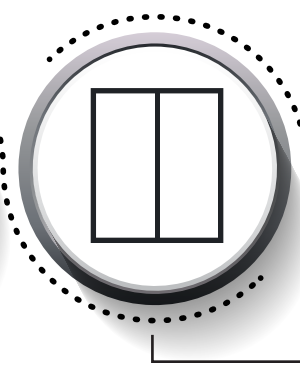

Our aluminum window systems are designed to meet the demands of contemporary living, combining aesthetics with intelligent engineering. Built for performance, efficiency, and durability, they offer sleek designs, seamless operation, and lasting value.

With a focus on innovation, precision, and adaptability, we create window solutions that enhance every environment, from elegant residences to dynamic large scale projects. The result is a perfect balance of form and function, delivering brighter, smarter, and more efficient spaces for today and tomorrow.

Benefits of Vitalis

High Performance :
(1600 Pa Wind Pressure)
Ensures superior structural integrity and reliability under demanding conditions.

Slim Interlock (20 mm):
Enhances aesthetics with a refined, minimal profile for unobstructed views.

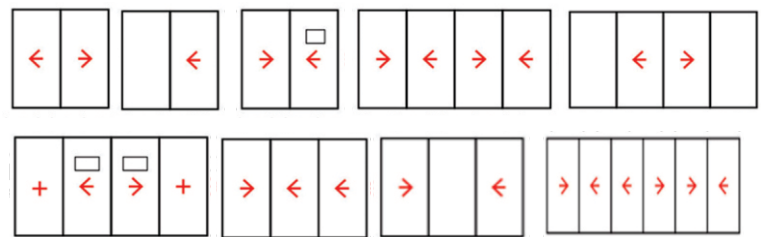

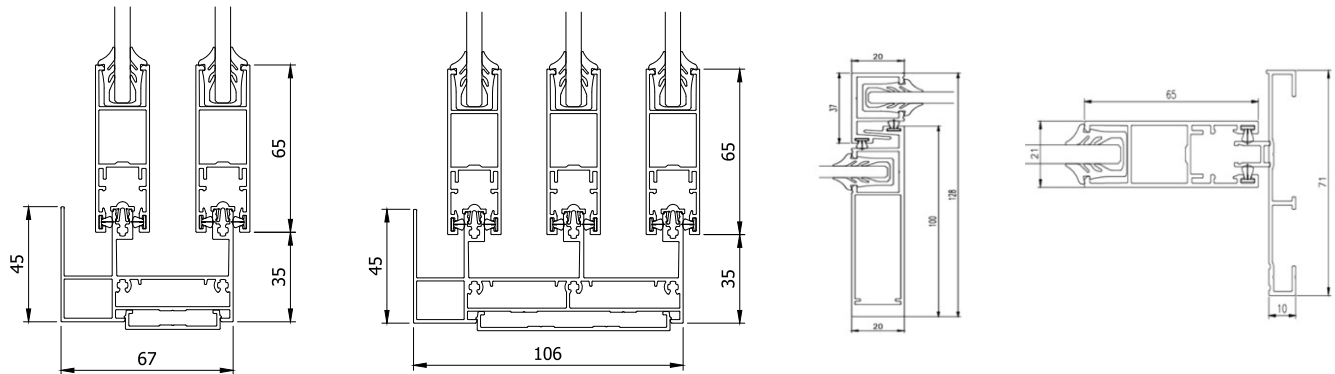

Sleek Appeal:
Modern design complements new generation architecture.
